

Essential To
Durability & Shelf Life

Application Of Product

Stretch cling film include Bundling Stretch Film, Hand Stretch Film, Extended Core Stretch Film, Machine Stretch Film and Static Dissipative Film.

Domestic

duwrap™ offers users the luxury of an easy-to-use, flexible packaging product that is totally non-toxic, recyclable, and provides a complete food preservation solution.

- Foods
- Gifts

Hospitality

For the Hospitality Industry, duwrap™ aims to become the preferred first choice in packaging options by providing comprehensive preservation of raw ingredients and food prepared in advance of being plated.

- Caters
- Hotel & Restaurants
- Events

Packaging

When it comes to protecting all-important packages to be sent for export, you can count on duwrap™ to keep the contents of said packages absolutely intact and free of damage.

- Pallet Wrap
- Electronics (Anti-Static)
- Export Wrap

Industrial

The durability that duwrap™ provides will ensure that raw materials and industrial machine parts will arrive at their intended destinations intact, ready to be used in the production of world-class products.

- Paper Reel
- Machinery Parts
- Card Box

Agriculture

Catering to all aspects of the Agriculture Industry, duwrap™ provides an airtight cover, one of the most important factors in successful bale silage production.

- Bale Silage
- Fresh Vegetables

Specifications

Thickness	11 micron to 50 micron
Width	50 mm to 1500 mm

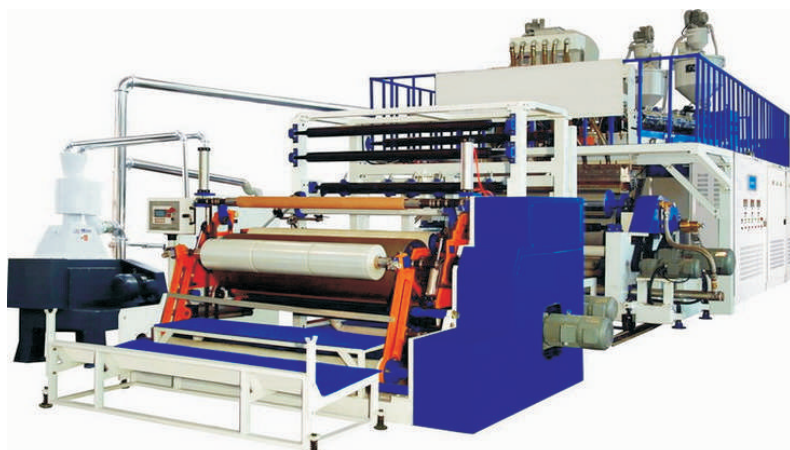

Producing good quality silage is dependent on using good quality materials and equipment, and this includes the bale wrap film. Stretch film bale wrap should meet several key requirements:

- It should have good mechanical properties
- It should have a high level of tack
- It should be stabilised for protection against the damage caused by sunlight, notably UV light

Features

- Consistent quality and thickness
- Good stretch properties even in warm weather
- No tendency of 'windowing' when being stretched
- Good cling between layers
- Puncture resistance
- Retention of strength over many months in the open
- Impermeability to air and moisture
